God's Wonderful Creation

By Ron Boatwright

The only way we can know about the creation is from God who did the creating. Genesis 1:1 says, "In the beginning God created the heavens and the

earth." Everything was created by the power of God. The first thing God did was to create light and in Genesis 1:4 "God called the light day and the darkness night. So the evening

and the morning was the first day." Each day including each day of the creation has light for day and darkness for the night. Also all six days of creation had both an evening and a morning (Genesis 1:5, 8, 13, 19, 23, 31) just like the days today. These six days of creation

were literal 24-hour days, not billions of years as some falsely claim.

God told Moses in Exodus 20:11, "For in six days the Lord made the heavens and the earth, the sea and all that is in them." God said that everything He created was created in these six days of creation. There was not a progressive creation spread out over billions of years.

In Genesis 1:24 we read, "And God said, let the earth bring forth the living creature according to its kind: cattle and creeping thing and beast of the earth, each according to its kind; and it was so." God is so

powerful that all He has to do is to speak and it happens. Each produces after its own kind. There is no evolution from one kind to another because God said that each was to produce "according to its kind."

In Genesis 1:27& 2:7 we read, "So God created man in His own image; in the image of God He created him; male and female He created them...and man became a living soul." We are created in the image of God; this is what makes us so special. All people have a soul that will live on forever in eternity either in Heaven or Hell. This is how we differ from the animals. But Psalms 33:8-9 says, "Let all the earth fear

the Lord; let all the inhabitants of the world stand in awe of Him, for He spoke and it was done."

A Monkey and a Typewriter

How long would it take lifeless chemicals under ideal conditions to evolve into a living protozoan? Answer: it could never happen!

Let's simplify the problem. How long would it take a monkey, pounding irrationally and randomly at a typewriter, to come up with the words of Genesis 1:1 ("In the beginning God created the heavens and the earth")? In fact, let's allow a million tireless monkeys to pound away at record speed (twelve keys a second) on simplified typewriters with only capital letters.

Now, try to think of a rock so large that if the earth were at its center its surface would touch the nearest star. This star is so far away that light from it takes more than four years to get here, traveling 186,000 miles every second.

If a bird came once every million years and removed an amount equivalent to the finest grain of sand, four such rocks would be worn away before the champion super simians would be expected to type Genesis 1:1."

God's great handiwork baffles the greatest minds ever produced. His glory and his power are beyond the capability of man to comprehend and appreciate. "*The heavens declare the glory of God; and the firmament showeth his handiwork. Day unto day uttereth speech, and night unto night showeth knowledge*" (Psalm 19:1-2).
